MATERIAL GOODS

Healthy Spaces

THE NEED FOR STERILE AND EFFICIENT ENVIRONMENTS THAT ARE ALSO WARM AND INVITING CAN CAUSE A RIFT BETWEEN FUNCTION AND AESTHETICS IN HEALTHCARE FACILITIES. THE LATEST PRODUCTS AND TECH TO HIT THE SECTOR AIM TO BALANCE CLEAN SPACES AND GOOD DESIGN.

Optimal Light

USAI Lighting's **Color Select** technology lets users control the color temperature of downlights and wallwashers to provide cold light during patient examinations and warm light while patients relax. The control technology varies the color temperature of electric lighting from 6000K to 2700K.
