

DIVERSITY DRIVING SSL. Winners of the seventh annual Product Innovations Awards reflect significant growth in products beyond area lighting and downlighting, notably on the decorative fixture front. **[Page 14]**

ARCHITECTURAL SSL

SSL BUZZ

DOE breaks down the impact of LED street lighting vs. its predecessors as far as the former's effect on nighttime sky glow. Results are mixed.

SSL BUZZ

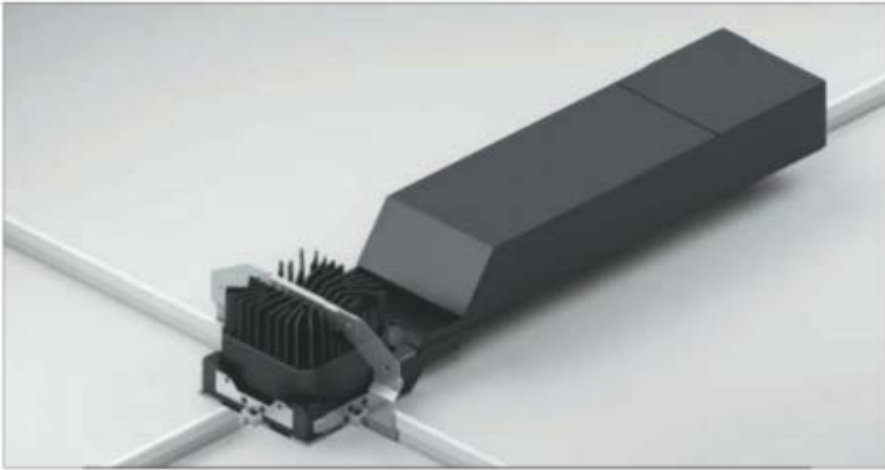

As we continue to look back at 10 years of LED reporting, industry executives reflect where LED is today and where things are going.

WHITE PAGES

Still need some summer reading? Kevin Willmorth recommends a number of new books and standards to get you up to speed.

USAI Lighting
USAI Connect

USAI Connect offers exact fixture placement in an Armstrong ceiling grid to seamlessly integrate recessed downlights. Available as a recessed, adjustable and wall wash option, the fixture is also available in the BeveLED, SilverLED and True Zero trim styles. It's also compatible with Warm Glow Dimming and Color Select.

→ Visit www.usalighting.com or Circle 296.

Judges' Comments: "Forward-looking and creative concept. Very easy to implement."

CATEGORY: DOWNLIGHTS

USAI Lighting
SilverLED

With a high-performing recessed pinhole, the SilverLED delivers more than 1200 lumens at 90 lpw from a 1-3/4 aperture, precisely illuminating areas within any residential, commercial or retail space. And, with a lower housing profile than most other pinhole fixtures at 4-1/8, SilverLED can be easily installed in any tight plenum space. USAI offers SilverLED in a variety of trims, including white, metalized gray, statuary bronze and flat black, plus with a variety of primers to match custom ceiling colors.

→ Visit www.usalighting.com or Circle 293.

Judges' Comments: "Another great option to deliver light that is unobtrusive to a clean, polished architecture."
