## Product Monday: Micro Pendant by USAI Lighting

CRAIG DILOUIE · JULY 15, 2019 6:00 AM · 184 VIEWS · NO COMMENTS

USAI Lighting's smallest LED downlight form factor now available in a pendant mount configuration, the Micro™ Pendant reveals the otherwise hidden heat sink fins for a deconstructed industrial appeal.

Its 1.375" profile and stem-mount solution integrates into virtually any ceiling type, including recessed and surface-mount junction boxes, and works especially well in slatted wood ceiling systems such as Armstrong Ceiling Solutions' WOODWORKS Grille.

The Micro Pendant is available in 2, 4, 6, 8 and 12-cell configurations with beautifully anodized white, black or conduit silver finishes and beautiful interior bevel finish options. Light output 500 to 3,125 delivered lumens. Choice of 2700K, 3000K, 3500K, 4000K CCT. Available with Classic White and Warm Glow Dimming LED color technologies.
