

Product Tiers Guide

A Solution for Every Budget

All I Ever Wanted Is Everything

Engineering For What's Next

USAI believes the specifier should have it all. As a solution-based lighting technology company built on a legacy of innovation, USAI's engineering team designs for the next generation of thinking for lighting spaces, fixtures, and technologies.

Our comprehensive platform of traditional and innovative LED solutions focuses on achieving the perfect balance between color technology, optical design, and superior performance while providing flexibility to address the architectural design and budget challenges of any space across verticals in an ever-changing and dynamic world.

Specification Simplified

Product Tiers.

Committed to making the specification process easier, USAI has created a Product Pricing Tier System. This system helps designers understand the cost of fixtures and features from tier to tier.

Online Configurable Spec Sheets.

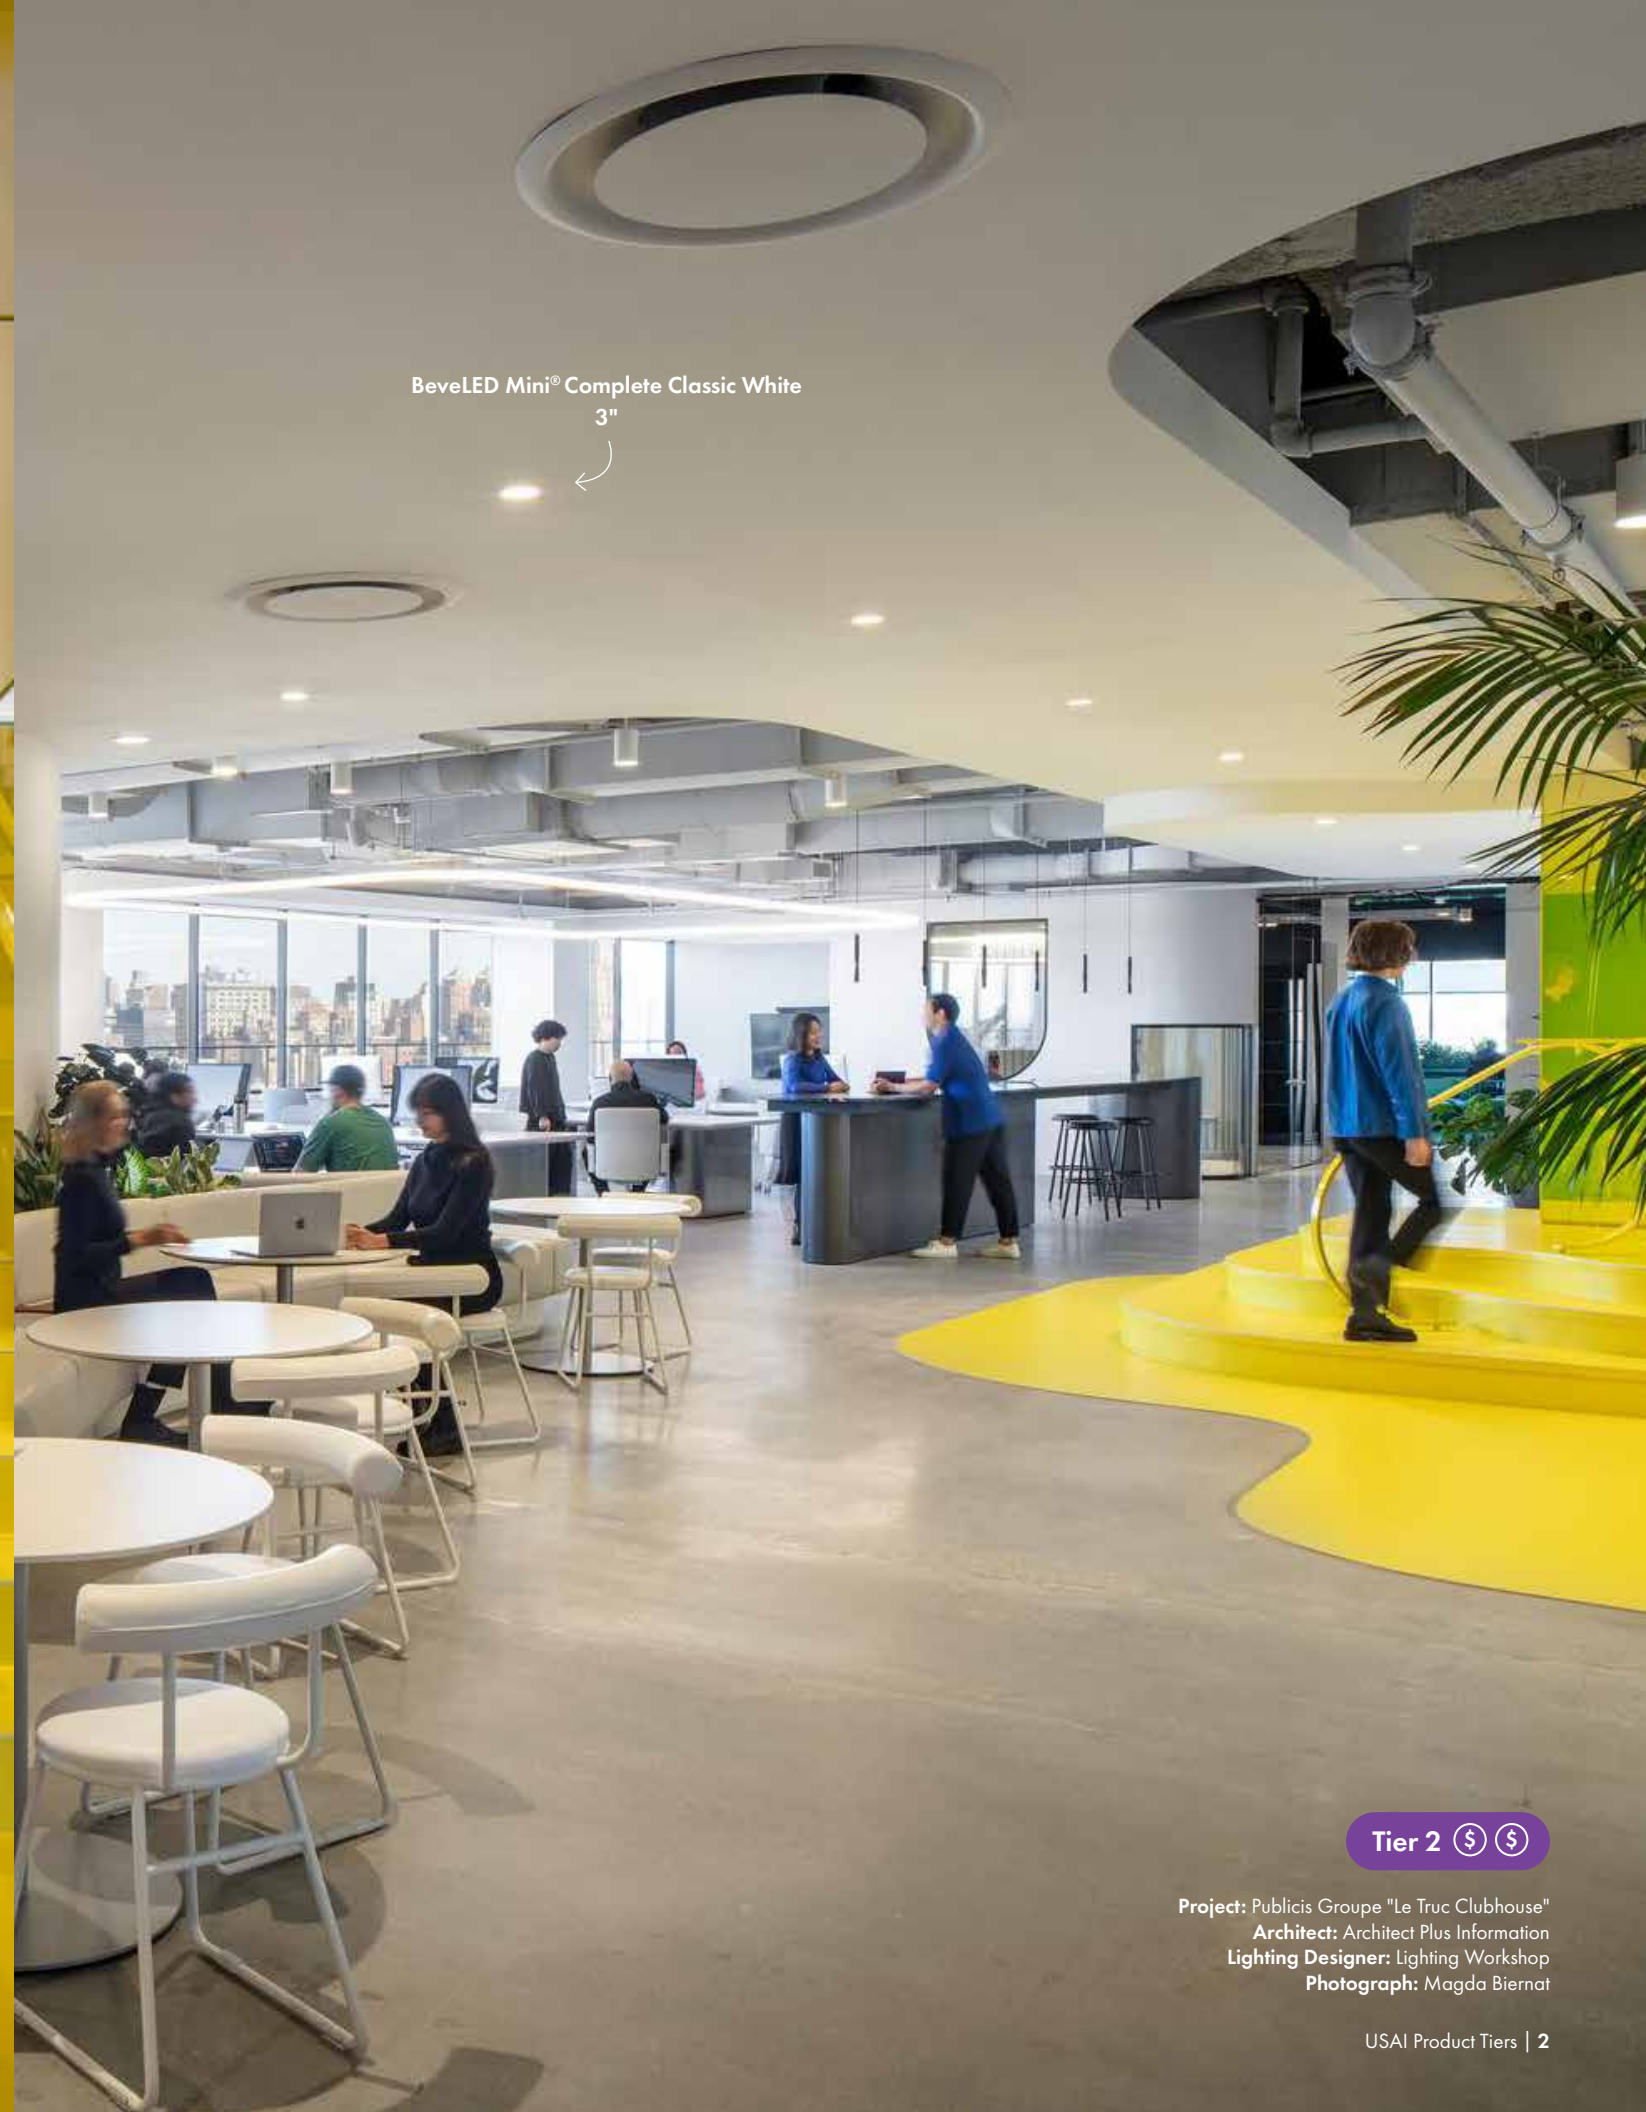

This feature allows specifiers to easily configure USAI products online and generate a spec sheet based on a project's product specification. Using an ordering table similar to USAI's existing static PDF spec sheets, and logic built into the system, chances of errors are significantly reduced during the specification process.

Providing:

- Customized Spec Sheets
- Shorter Spec Sheets
- Option to Input Labels (project, specifier, fixture type, and notes)
- Smart Logic Only Offering Accurate Combinations
- Option to Have Custom Spec Sheet Emailed to You

Layering Tiers within a Project

Consider The Color of Light As An Essential Design Element

Light is equally as precious as the finishes and materials in a room. Every space, object, or task has an ideal shade of light to be lit by. Choosing the right light can make everything, everyone, and the experience extraordinary. USAI Lighting engineers are the trailblazers who innovated new possibilities and tools that were never before available – offering color temperatures ranging from 2200K to 6000K. These patented technologies provide design opportunities only limited by the imagination and include, **Classic White®**, **Color Select®**, **Warm Glow® Dimming**, and **Infinite Color+®**.

Guide to USAI LED Color Choices Color Temperature Matters. What's right for your project?

Classic White® Tier 1 2 3

EXPERIENCE Color Consistency and Premium Performance
CLIENT REQUIREMENTS Clients looking for beautiful consistent/static LED lights with exquisite dimming.

Warm Glow® Dimming Tier 3

EXPERIENCE Uncompromised, Patented, Traditional Warmth in an LED
CLIENT REQUIREMENTS Clients who love their traditional light sources (halogens and incandescent) and want the same warmth and dimming experience with their LED.

Dim-to-Warm & Dim-to-Warm + Tier 1 2

EXPERIENCE Warmth in an LED
CLIENT REQUIREMENTS Clients requiring warm dimming options for budget-friendly and competitive projects.

Color Select® Tunable White® Tier 3

EXPERIENCE Daily Light Cycle Mimicking Outdoor Natural Light
CLIENT REQUIREMENTS Clients interested in bringing the outdoor light cycle inside for wellbeing benefits and personalized environments.

Infinite Color+® Tier 3

EXPERIENCE Experience Full Spectrum WRGB with Personalized Whites, Saturated Hues, Soft Pastels and Everything In Between.
CLIENT REQUIREMENTS Clients looking for the ultimate in dynamic lighting with the greatest flexibility – from bespoke experiences, to perfectly match layers of light from other fixtures.

Warm Dimming Tiers

Warmth for Every Budget

USAI's Warm Dimming offerings provide a tiered selection based on color quality, dimming options, performance, and price.

Created to meet the needs for every project and budget, specifiers now have two **Dim-to-Warm** options in addition to USAI's proprietary **Warm Glow® Dimming**. Warm Glow Dimming remains the industry's best LED option to match incandescent dimming. When on a budget, use **Dim-to-Warm** to achieve dimmed warmth without reaching candlelit levels.

Dim-to-Warm	Dim-to-Warm +	Only LED that Mimics an Incandescent Warm Glow® Dimming
3000K Dims to 1800K	3000K Dims to 2000K	3000K or 2700K Dims to 2200K
Provides standard LED warmth	A more natural warm dimming option that is close to incandescent	USAI's proprietary LED technology provides a perfect match to incandescent dimming
90+ CRI	90+ CRI	80+ and 90+ CRI
Good Color Consistency 3-Step MacAdam Ellipse	Good Color Consistency 3-Step MacAdam Ellipse	Best Color Consistency 2-Step MacAdam Ellipse
