-  Infinite Color+®
-  Dry/Damp/Wet Location Rated
-  Meets Well Building Standards
-  Title 24

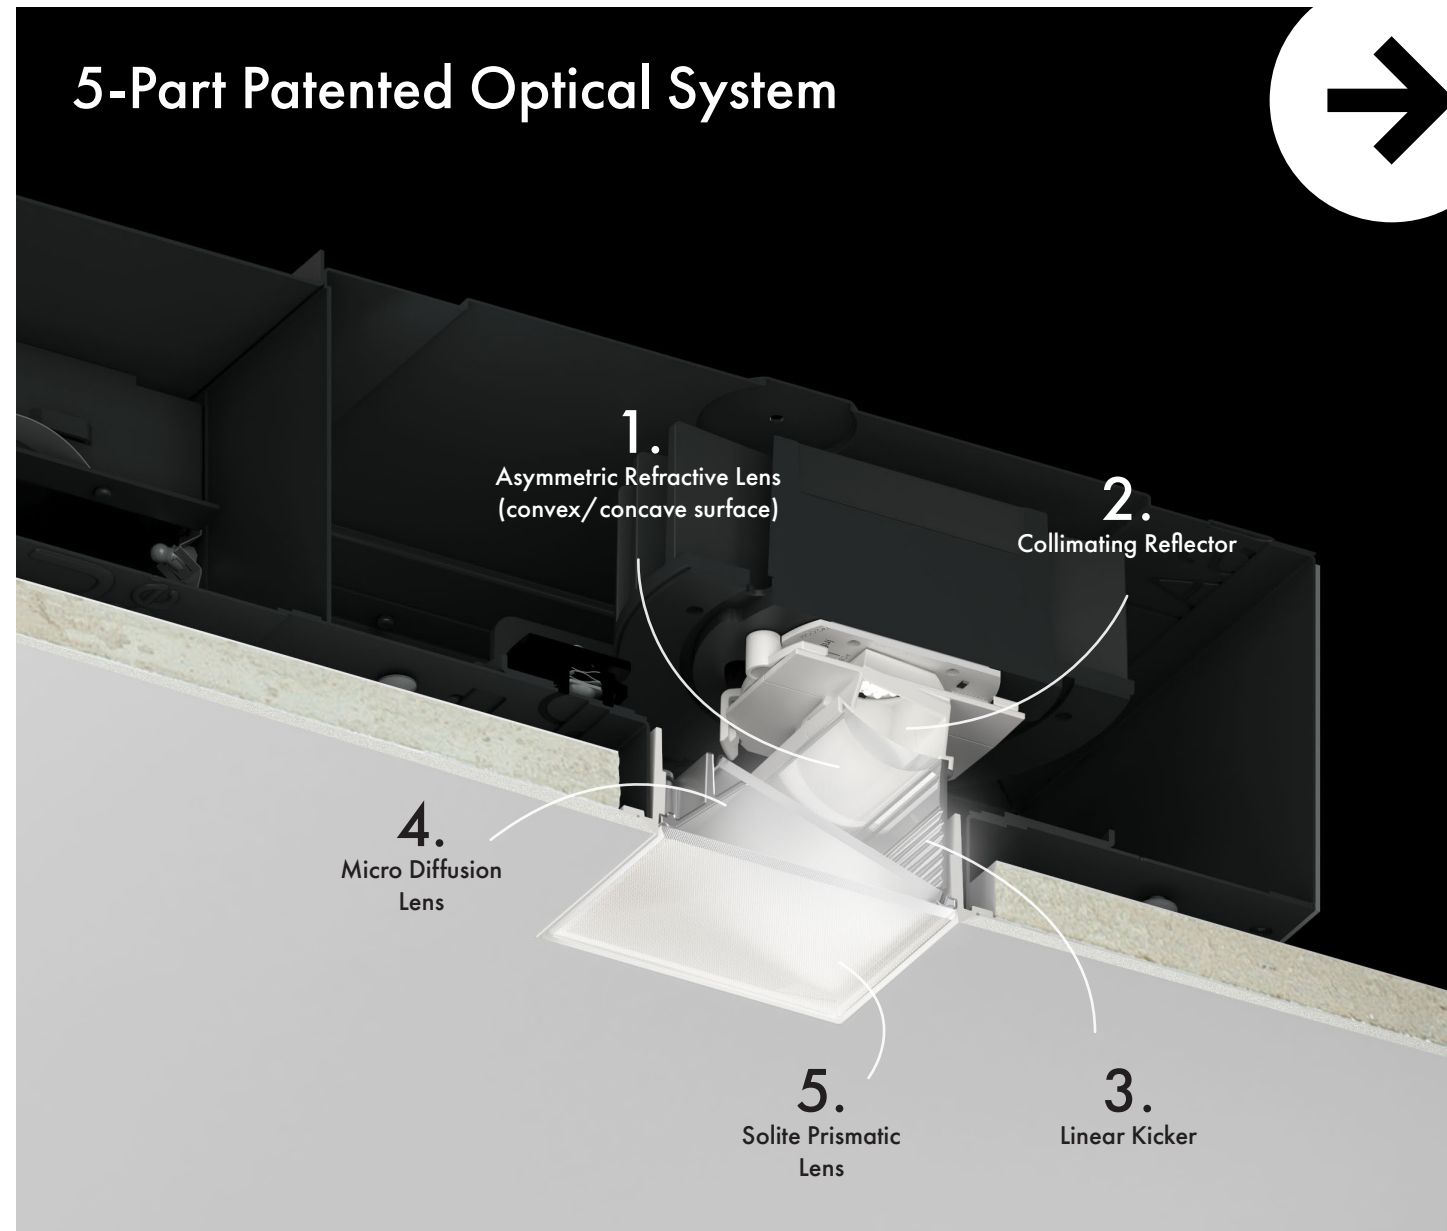

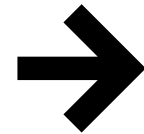

We Made This...

USAI's Exceptional Wall Wash

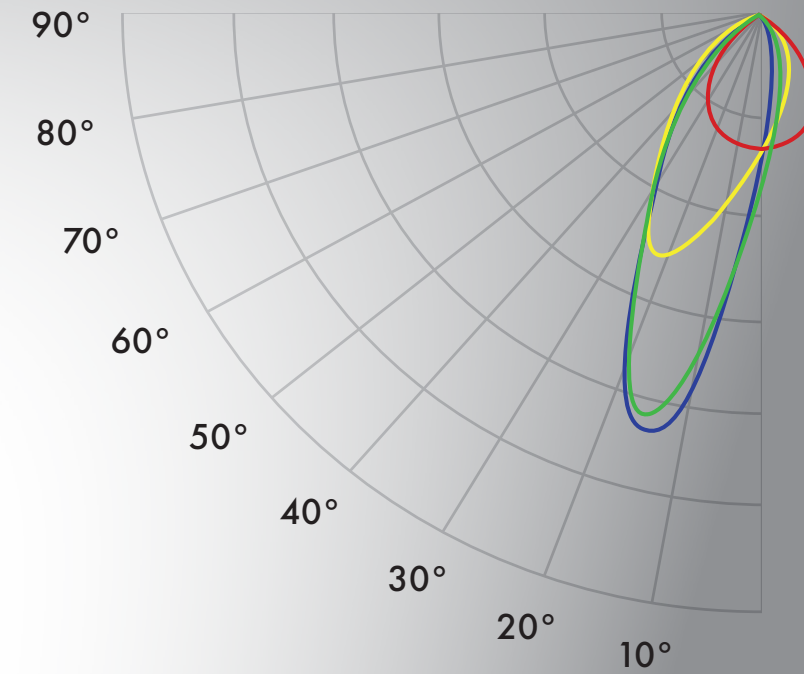

Designed for Comfort At Every Angle

Incredibly efficient in placing light where it's wanted, USAI's 5-part patented optical system keeps the beam focused and framed while preventing unwanted brightness from the light bouncing back into the room. The light source and fixture interior nearly disappear while maintaining a subtle luminance on the lens.

5-Part Patented Optical System

So You Get This

Choose What You See.

Light Where You Want It.

Here's what you are seeing...

Light is evenly and fully directed on the wall by Quiet Comfort™ Optics into multiple controlled directions:

1. Evenly up high and wide where the wall meets the ceiling.
2. Evenly down low to where the wall meets the floor.

RESULTS:

Wall Wash Perfected

The wall is perfectly illuminated with 360° glare-free comfort from all viewing angles and directions with virtually no backlight spilling into the room.

Fixture Location Flexibility

- Install as close as 12" away from wall
- Suggested distance is 24" - 36" away from the wall for 8' to 12' walls

Eliminates
backlight
and scatter

82%
light on
the wall

An Ultra Quiet Design

TrueZero³⁶⁰ Trims offer two new quiet aesthetics for the ceiling:

1. Truly Zero Trimless 00" Regress
2. Truly Subtle ³/₈" Regress.

Offered in various finish combinations, find the best fixture to meet the needs of the architecture and intent for each space.

Truly Zero - Trimless 00" Regress

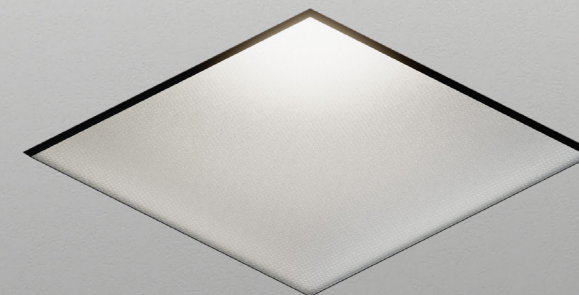

Designed for the ultimate quiet ceiling experience, this trimless fixture's glass aligns with the ceiling plane and appears to float gracefully with one singular identity for downlight, wall wash and adjustable options. Available in trimless and millwork.

Downlight, Adjustable, Wall Wash

One shared roomside appearance for 00" Regress

Truly Subtle - ³/₈" Regress

Designed with an ultra quiet ³/₈" regress to create a separation of light that appears to sit deeper above. The visual result is a sophisticated level of detail in the ceiling with downlight, wall wash and adjustable options. Available in trimmed, trimless and millwork.

Redefining Quiet

24/7, lights on or off

TrueZero360™ provides a clean monolithic ceiling whether the lights are on or off. The Truly Zero 00" Regress flush glass design aligns with the ceiling and hides the internal engineering of the fixture.

RESULT: One singular below-the-ceiling appearance for downlight, wall wash and adjustable. TrueZero360 fixtures remain discreet within the ceiling – elevating the bar for "quiet ceilings".
